

AMATEUR HF/6m Base Transceiver

IC-7610

- Dual RF direct sampling receivers, achieving 110dB RMDR (Reciprocal Mixing Dynamic Range)
- VCXO (Voltage Controlled Crystal Oscillator) is used for the master clock and yields an ultra-low phase noise
- Independent dual receiver allowing you to receive two independent frequencies simultaneously
- DIGI-SEL for main and Sub Bands which is ideal for the times when signals are received in a contest pile-up or from broadcast stations on adjacent frequencies or bands
- High quality speaker sound has been achieved by producing a chassis to prevent noise from vibration and panel resonance

Accessories

Hand Microphone (HM-219), DC Power Cable, Spare fuses, Carry Handle & Plugs

Antennas

AH2B	Antenna Element - Covers 7-54MHz (For use with AH4)
AH4	Automatic Antenna Tuner (3.5-54 Mhz with a 7m or longer wire antenna)
AH740	Automatic Tuning Antenna (2.5-30MHz). Req OPC-2321.

Amplifier

IC-PW1	HF+50MHz 1kW HF linear amplifier (req OPC-599)
--------	--

Cables

OPC-2321	Control cable adaptor for AH740 (6m)
OPC-599	13 pin to 7/8 pin adaptor cable

Desktop Microphones

SM30	Desk microphone
SM50	Dynamc Desk Microphone

External Speakers

SP23	5w, 8 ohm external speaker with audio filters and h/phone jack
SP33	Wooden Box Speaker
SP34	5w external speaker with audio filters and h/phone jack

IP Remote Control Software

RC28	Remote Encoder to use with RS-BA1
RS-BA1	To allow control of transceiver from PC

Microphones

HM219	Hand Microphone (As Supplied)
-------	-------------------------------

Mounting Brackets/Base

MB118	Mobile mounting bracket
-------	-------------------------

Power Supply

PS126	Power supply - 13.8V/20amp
-------	----------------------------
