

Icom Australia Pty Ltd endeavours to support all legacy Icom products, however, due to the decreasing availability of components, some models are no longer supportable.

Because of this, Icom Australia can only support and repair the radios listed in the table below effective from 1st Sept 2017.

Please note that some models on the list have limited support and parts availability. We strongly suggest customers contact the Service Department via email before returning any products.

Bold Type : Limited support and Repair Parts.
